

From the Chamber President:

Dear Chamber Members,

February is an exciting month as we Minnesotans prepare to host the 52nd Annual Super Bowl for the first time in a quarter of a century! I recently read that the Super Bowl LII Host Committee has assembled 10,000 volunteers from a pool of over 30,000 applicants. That's right – *30,000 people volunteered to help!*

Elizabeth Andrew said: "Volunteers do not necessarily have the time; they just have the heart." It makes me wonder – for what do we have the heart? What is important to us in the community of St. Joseph? We, the Chamber members, are the business leaders of our community. Where we spend our time shows our heart.

Last year, I recruited a crew of volunteers from my workplace to help set up and tear down the setting for our St. Joseph Community Showcase event. I was proud that so many of my colleagues donated their time and energy. For me, Chamber means not only building my business network but also giving back to my community.

There are many opportunities to serve the city of St. Joseph and our Chamber of Commerce. If you have time and talent to give, I want to hear from you!

On to some Chamber information...

I can't wait for February's meeting to see Woodcrest of Country Manor. The manager, Gail Rucks, has invited us for lunch by her talented culinary staff and it's still only \$10 for another incredible catered lunch at our Chamber meeting. I've been told the tour will not take any longer than a normal meeting and will be done by one! I'm looking forward to seeing all of you!

Best Regards,

Leslie Lane, St. Joseph Area Chamber of Commerce President

Sisters of the Order of Saint Benedict

On Sunday, January 7, the Knights of Columbus collaborated with Sisters of the Order of Saint Benedict to host a community parish breakfast to benefit Colegio San Benito, a K-9 school in Humacao, Puerto Rico, that is administered by the sisters of Monasterio Santa Escolástica and was founded by the sisters here in St. Joseph. We are thrilled to announce that we served 412 people and received \$2,033 in donations! Thank you to all who came to support the Sisters of the Order of Saint Benedict and our sisters in Puerto Rico.

Tune Up Your Immune System

by Dr. Stephen Chaney

Many of you have been asking me: "They are saying the flu is going to be bad this winter, but all I hear about in the news is shots and drugs. Is there a holistic approach for strengthening my immune system?" My answer is yes! Here are my suggestions:

1) Start by eating a balanced diet composed of whole, unprocessed foods without a lot of fat and simple sugars. A great place to start designing a balanced diet for your age, gender and activity level is <https://choosemyplate.gov>.

2) Get plenty of sleep. The experts recommend 8 hours of sleep a night, but most Americans get far less.

3) Exercise on a regular basis. Both too little and too much exercise can weaken the immune system. The experts recommend at least 30 minutes at least 5 days a week.

4) Maintain ideal body weight. Those excess pounds really zap our immune system.

5) Minimize your reliance on medications. Many common medications weaken the immune system (Just listen to the disclaimers in the TV commercials for examples). But you must work with your physician on this.

6) Focus on the positive. Studies show that optimists are healthier and live longer than pessimists.

7) Add a supplement program to assure that your immune system is functioning optimally. In the ideal world supplements wouldn't be necessary, but there are very few "saints" who do a great job in all 6 of the areas that I mentioned.

Getting Nutrients Your Immune System Needs:

~ B vitamins and protein because our immune cells need to divide very rapidly when we have immune challenges.

~ Antioxidants because our immune cells create lots of free radicals.

~ Trace minerals, especially iron and zinc, because they are required by important enzymes of the immune system.

~ Vitamin D because it is vitally important for a strong immune system and most of us are not getting enough.

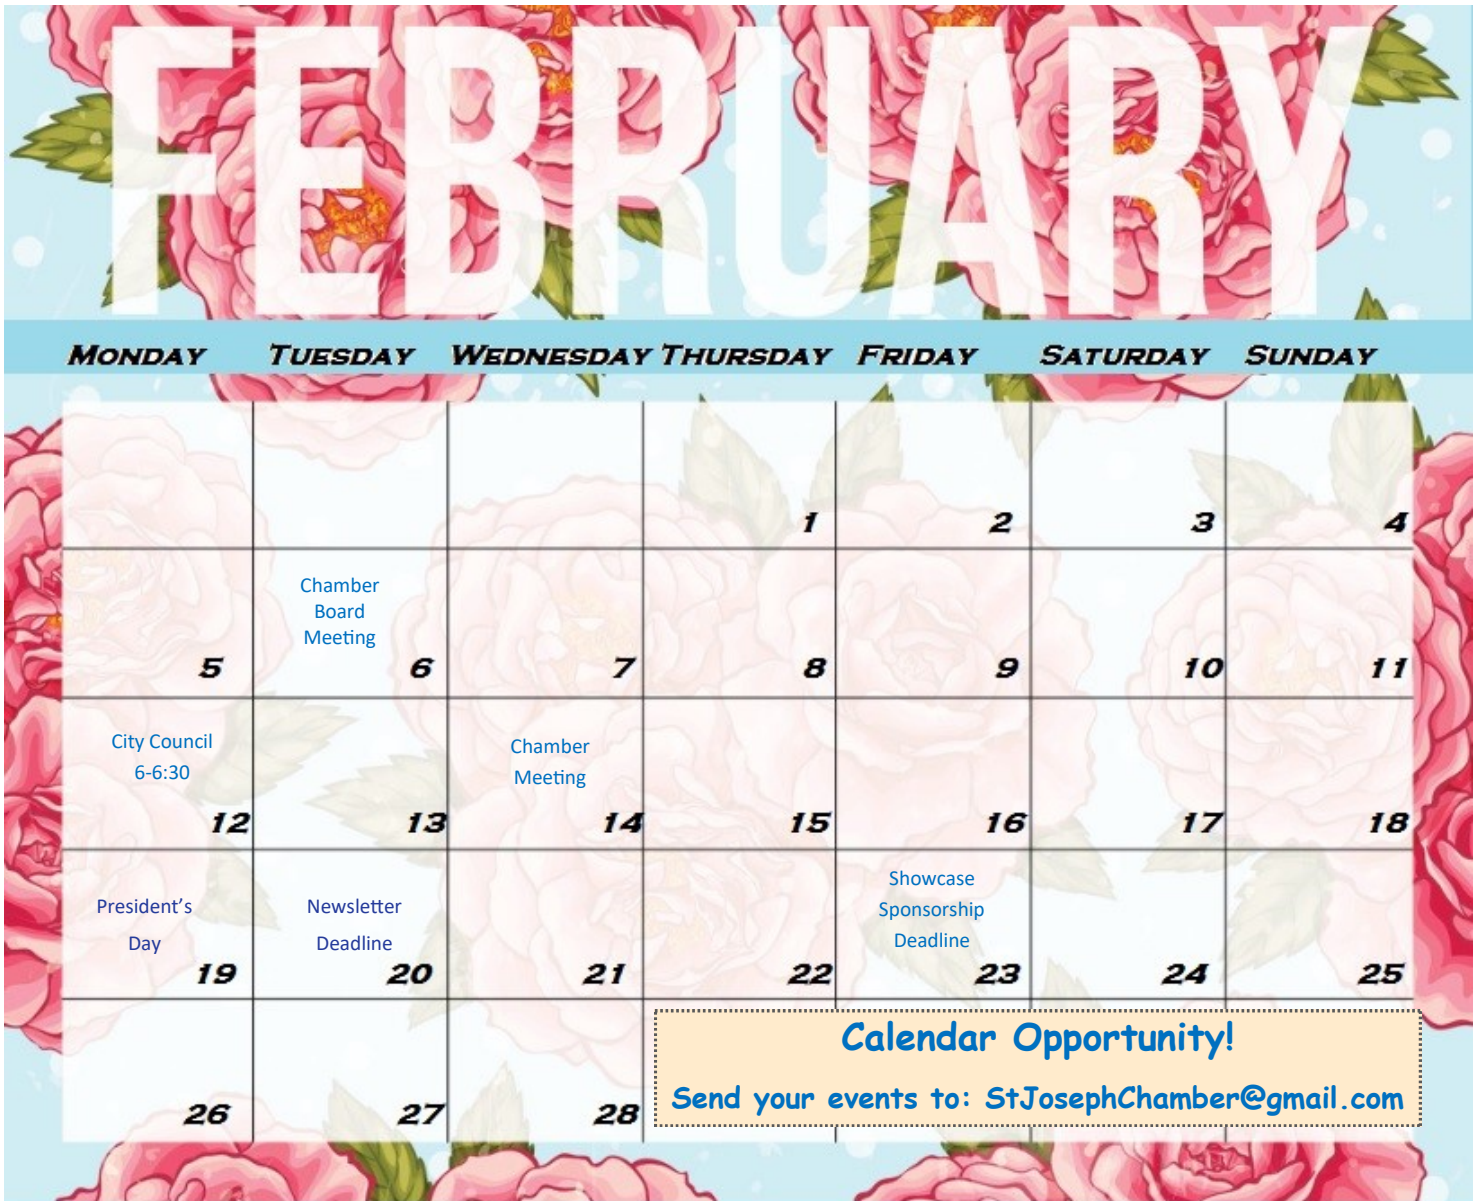

~ Probiotics (healthy bacteria) because 70% of our immune system reside in the gut and "bad" bacteria and yeast in our intestines can weaken the immune system.

~ Omega-3 fatty acids to modulate the immune system once it has taken care of the invading bacteria or viruses. We don't need mega-doses. We just need enough.

One final thought: A holistic approach to strengthening our immune system is not an "either - or" proposition. I've seen estimates that the flu shot is 66% effective in preventing the flu for people with a strong immune system and only 33% effective in preventing the flu for people with a weak immune system.

The Bottom Line: I shared tips on keeping your immune system strong, so you can withstand the worst winter brings. These statements have not been evaluated by the FDA. This information is not intended to diagnose, treat, cure or prevent any disease. ~Dave Carlstedt
